Martin Haese

Chair, Premier's Climate Change Council

The South Australian Government has set bold goals for achieving 100% net renewable electricity generation by 2027 and net zero emissions by 2050.

As the Chair of the Premier's Climate Change Council – the South Australian Government's independent advisory body on mitigating and adapting to climate change, we invite you to participate in South Australia's second Industry Climate Change Conference.

This important conference will be held in Adelaide on Thursday 8 and Friday 9 May 2025.

The South Australian Government has ambitious and achievable state-wide targets to reduce net greenhouse gas emissions by at least 60% by 2030 and achieve net zero emissions by 2050. The state government also has a target to achieve 100% net renewable electricity generation by 2027. This conference is designed to inform, educate and inspire the business community to prosper in a low-carbon economy.

In recognition that action is required by all sectors to achieve these targets, the state government is hosting this second conference to bring together industry, business and government representatives from across South Australia to showcase how we are building a strong net zero emissions future and climate resilient economy for South Australia. Please join us.

About the Conference

The Industry Climate Change Conference 2025 will build on South Australia's global reputation as a climate change leader by continuing to move the state towards a resilient and low emissions future.

By working together across different sectors, South Australia can reap the benefits of the rapidly emerging green economy. Conference sponsors will showcase solutions for climate action, to help industry and businesses across the state to reduce their emissions, build their climate resilience, and benefit from the transition to a net zero economy.

About the Venue

The Adelaide Convention Centre is a centre transformed.

A striking landmark on Adelaide's Riverbank, the Centre comprises three independent yet seamlessly integrated buildings: East, Central and West.

Each building takes advantage of their prime positioning on the River Torrens, providing plenty of natural light and panoramic views of the river to deliver a heightened sense of destination.

Close proximity to the entertainment, cultural and sport precinct, the Centre is a short walk to international and boutique hotels and accommodation. Public transport, the Adelaide Railway Station and a taxi rank are on its doorstep. Adelaide International Airport is just seven kilometres from the Adelaide Convention Centre, making a quick and economic taxi ride.
